EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Schultz on 9/27/06.

The application has been amended as follows:

Claim 8, line 1, the expression "claim 19" recited thereof is changed to --claim 7--;

Claim 9, line 1, the expression "claim 19" recited thereof is changed to --claim 7--;

Claim 10, line 1, the expression "claim 19" recited thereof is changed to --claim 7--.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a programmable equalizer. The independent identifies the feature of "the variable equalizer connected between the switch and the receiver; and a controller storing line loss parameters for each input device and adjusting the equalizer to compensate depending on which input device is connected to the receiver by the switch". The closest prior art, Alexis et al (P.N. 3,456,206) discloses a conventional active equalizer, either singularly or in combination fails to disclose or render the above underline limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Alexis et al (P.N. 3,456,206) disclose a conventional active equalizer.
